## Supergrip 1103 V4

### DESCRIPTION:

Supergrip 1103 V4 is a fast setting, clean running adhesive

---

### PHYSICAL CHARACTERISTICS:

Base:	copolymer emulsion
Total Solids %:	48.0-52.0
Viscosity CPS @ 24°C:	300-400
Relative Density:	1.06-1.08
pH value:	4.0-6.0
Colour of Dried Film:	translucent
Cleaner:	water (wet), MEK (dry)
Application:	extruder or electronic extrusion
Shelf Life:	6 months

---

### FEATURES AND BENEFITS:

Supergrip 1103 V4 is a fast setting, clean running, adhesive for bonding difficult surfaces (dense clay coatings, plastic coatings, etc.) using an extruder or electronic extrusion.
