

Technical Data Sheet

Supergrip 1193

DESCRIPTION:

Supergrip 1193 is a water based multi-purpose adhesive

PHYSICAL CHARACTERISTICS:

Base:	copolymer emulsion
Total Solids %:	55 – 59
Viscosity CPS @ 24°C:	350 - 450
Relative Density:	1.06 - 1.08
pH value:	4.3 - 5.3
Colour of Dried Film:	light, translucent
Cleaner:	water (wet), mek (dry)
Shelf life:	3 months

APPLICATIONS AND FEATURES:

Supergrip 1193 is a water based multi-purpose adhesive with excellent adhesion to a variety of materials such as paper, foil, wood, metals, PVC and most plastics.

It can be used for foil or film laminating and high speed packaging applications.
